

I agree with current NJ Governor Codey and many other state residents who wish to have NO amendments to New Jersey's Do Not Call List legislation. Personally speaking, being on the Do Not Call list has provided me and my family with tremendous peace and security in knowing that our limited time together will not be interrupted unnecessarily by soliciting. As adults, we are very aware of the many ways in which to contact a business whose products or services would be of interest to us. We do not need these solicitation requests. If we want to engage in business with any of these companies, we will seek them out for ourselves at times that are convenient to US, not at the telemarketers' convenience. DO NOT REPEAL NJ's DO NOT CALL LEGISLATION. Thank you.
